

karesslite®

Quality portable white light has arrived...

- High output attractive soft light
- Non glare extendable diffuser provides a single light source
- Daylight and Tungsten versions available
- Honeycomb louvers and barn door accessories available
- High quality colour with minimal shift on dimming
- Portable and light weight
- Studio version also available
- DMX and local dimming on all units

karesslite® series LED-based lighting system provides unlimited flexibility for location and studio shooting.

karesslite® uses high quality Tungsten or Daylight balanced LEDs creating, broad spectrum white light specifically developed for film and video applications. Unlike traditional lighting products, colour temperature remains consistent throughout the full range of intensity variation.

karesslite® is a professional lighting unit developed to adapt specifically to the dynamic requirements of film and video shoots. The fixture can be ordered with an industry standard V-mount to allow flexible, battery powered operation.

These LED-based fixtures operate with a fraction of the power required by traditional professional lighting and with little to no heat emission.

karesslite® provides three methods of control:

- Local control for easy, standalone operation
- Full DMX implementation
- Simple wired remote dimmer

karesslite® provides three methods of power:

- V-lock batteries one or two
- Remote battery solution using XLR 4 connection 12-40VDC
- Mains power supply either V-lock or freestanding
